Ahmed Mandouh

Backend Developer | PHP, Laravel & Node.js

Cairo, Egypt · +20 108 086 8769 · ahmedmandouh101@gmail.com

Portfolio / GitHub / LinkedIn

I build and maintain APIs for booking and payment systems. At Runsoft, I work on the rules that determine when a rental is available, how a booking is confirmed, and how payment updates reach web and mobile clients.

EXPERIENCE

Backend Developer | Runsoft

March 2026 - Present · Egypt · BayToStay

- Maintain PHP, Laravel, and MySQL APIs for rental availability, pricing, bookings, and payments.
- Validate booking dates against blocked and reserved periods to prevent double bookings. Track partial payments and outstanding balances as booking status changes.
- Extend V11 and V12 APIs for the web platform while preserving mobile client compatibility. Implemented real-time chat for the website.

Backend Intern | NAMI

January - April 2024 · Egypt

- Built Laravel endpoints for orders, carts, coupons, and payments using Eloquent and MySQL.
- Implemented JWT authentication and role-based authorization. Added validation, filtering, sorting, and pagination to API responses.

SELECTED PROJECTS

GarageLog | Vehicle maintenance API

Laravel 11, MySQL, Sanctum, PHPUnit · Repository

Built service histories, parts tracking, and maintenance reminders based on mileage or date. Implemented access rules for owners, mechanics, and admins, with 16 automated tests.

Planit | Tour booking API

Node.js, Express, MongoDB, JWT · Repository

Developed tour search and booking endpoints with filtering and pagination. Implemented password resets, request validation, rate limiting, and health checks.

TECHNICAL SKILLS

Backend PHP, Laravel, Node.js, Express, TypeScript, JavaScript

Data and APIs MySQL, PostgreSQL, MongoDB, Redis, REST, API versioning, SQL transactions

Engineering tools Git, Linux, PHPUnit, Postman, Docker, Podman

EDUCATION

B.Sc. in Computer Science | Menofia University

Faculty of Computers and Information · Egypt · 2020 - 2024
